

COUPLES OR FAMILY CONSENT FOR TREATMENT

As a consumer of Mental Health Services, each adult member of a couple or family who is present at a therapy appointment has a right to certain things from a therapist and each adult has an obligation to provide certain things to a therapist. Please read the following information and ask me if you have any questions:

While working as a couple or intact family and for therapeutic purposes, it is the policy of The Jonas Center that anything shared individually whether by phone, email, text or in person, may be shared with the spouse/partner/family member at the therapist's discretion in subsequent couple/family sessions. Any written documentation requested will be managed as specified in the PRIVACY AND RIGHTS POLICY (See Below). In certain situations, such as family therapy when the parents are divorced and other situations, The Jonas Center Policy is that each parent has a right to their individual privacy as specified in the PRIVACY AND RIGHTS POLICY (See Below).

Per mental health licensing requirements, in couples or family therapy, each family member present is considered a client. When you use your insurance however, most insurance companies require the mental health provider to diagnose one individual as the identified client. The couple or family therapy will be documented in the electronic health record of the identified client, however the information provided by each adult member is considered that member's information and will be managed as specified in the PRIVACY AND RIGHTS POLICY (See Below).

Every adult family member over age 18 must sign this Consent.
